Leitura Musical 1

Prof. Glauber Santiago

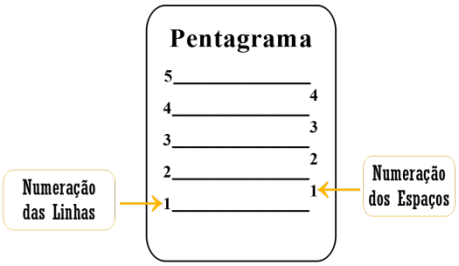

Abaixo vemos um exemplo de partitura musical.

Vamos conhecer cada um dos seus elementos?

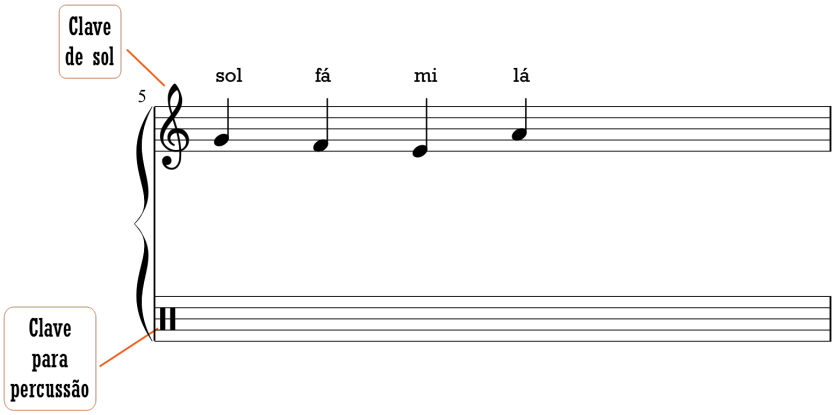

Sistemas são conjuntosdepautas que são executadas simultaneamente.
Geralmente, cada pauta, refere-se a um instrumento.
Aqui, nesta nossa aula, a primeira pauta foi chamada de Melodia e a outra de Marcação do tempo.

Para a escrita musical utilizamos um conjunto de **cinco linhas**equidistantes que formam **quatro espaços** que é chamado de **pentagrama ou pauta musical**.

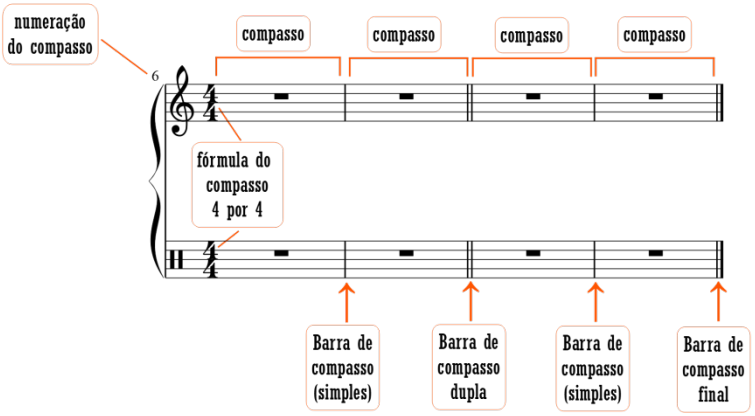

As linhas e os espaços do pentagrama são **numerados de baixoparacima**, conforme indica a figura ao lado.

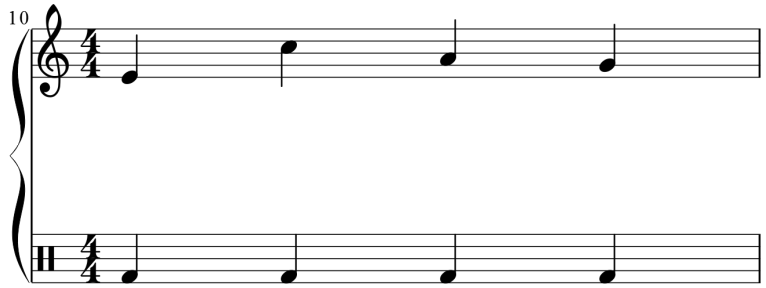

As **claves** são símbolos que servem para identificar qual o padrão de notas utilizado no pentagrama. **Ou seja**, onde ficam cada nota musical nas linhas e nos espaços.

Temos muitos tipos de clave, aqui temos **dois destes tipos:**
No primeiro sistema temos a **clave de sol** e no sistema de baixo uma outra **clave** utilizada para indicar **instrumentos de percussão**.

Na clave de sol a **segunda linha** é onde fica a nota **sol**.
A nota **fá** fica abaixo da sol, no **primeiro espaço**.
A nota **mi** fica abaixo do fá, na **primeira linha**.
A nota **lá** fica acima da nota sol, no **segundo espaço**.
E assim por diante.

As **fórmulas de compasso**, também conhecidas como **símbolos de compasso,** são escritas no inícioditrechoapós a clave e indicam que **tipo de compasso** está sendo utilizado.
Compassos são agrupamentos de tempos organizados.
Por exemplo, no trecho acima temos o símbolo do **compasso 4 por 4** (4 em cima e 4 em baixo).
Assim no sistema temos vários compassosdeste tipo. Em um compasso 4 por 4 temos **quatro tempos musicais porcompasso**. Ou seja, podemos marcar: **um**, **dois**, **três**, **quatro**.
No sistemaacima temos 4 compassos, cada um com 4 tempos.
Para se indicar (separar) cada compasso são utilizadas **barras de compasso**.
A **barra simples** é a que mais aparece. A **barra dupla** é utilizada para marcar divisão novos trechos e a **barra final** é utilizada para marcar o final de uma peça ou de um trecho de uma obra maior.

Para representar os sons e os silêncios em uma partitura utilizamos **figuras musicais**.

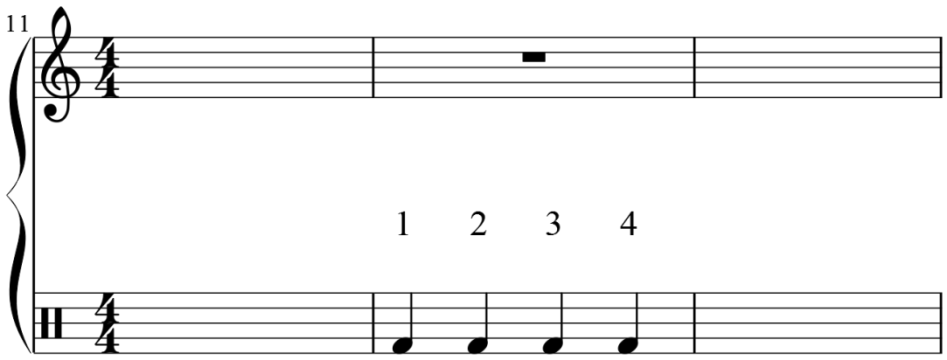

A primeira figura musical que apresentaremos é a **semínima** que pode ser vista ao lado e também acima, no pentagrama.

A semínima é formada por uma cabeça cheia e uma haste.

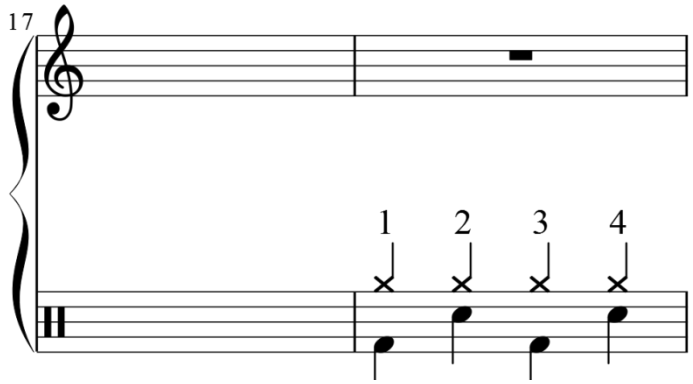

No compasso 4 por 4 a semínima vale um tempo musical.

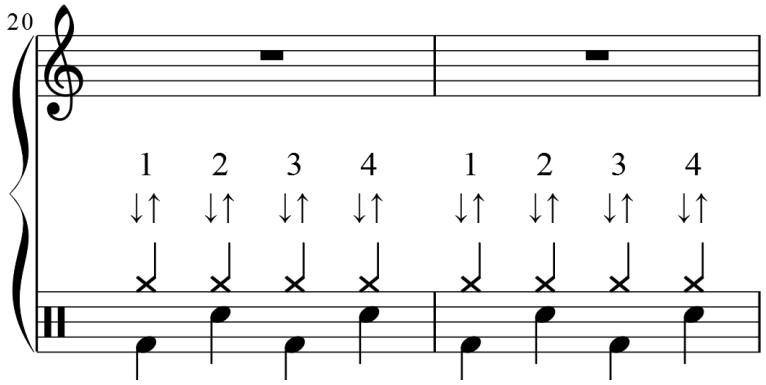

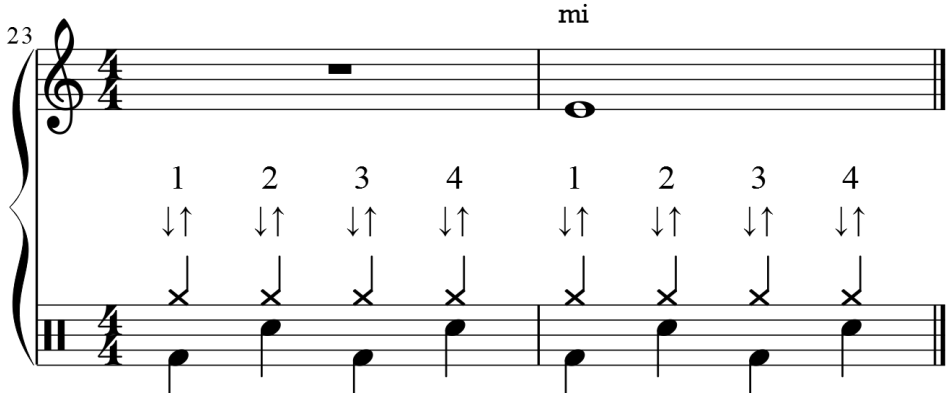

Ouça o exemplo no compasso 10.
